PROFESSIONAL SUMMARY

Frontend developer with 1.5 years of professional experience building responsive React applications. Proficient in React, TypeScript, Tailwind CSS, Zustand, and REST API integration. Recently expanded skills into backend development — built and deployed a fullstack AI-powered project management tool using Node.js, Express, PostgreSQL, Prisma, and Groq AI. Comfortable working across the full stack and eager to contribute in both frontend and fullstack roles.

WORK EXPERIENCE

Associate React Developer

Bitskraft Pvt. Ltd., Kathmandu | Dec 2024 – May 2026

- Built responsive UI components using React.js, TypeScript, Material UI, and Tailwind CSS
- Integrated REST APIs for data fetching, form submissions, CRUD operations and file uploads
- Developed reusable modal components for create, edit, delete workflows reducing duplication
- Implemented client-side filtering with useMemo and server-side filtering via query parameters
- Added debounce on search inputs to optimize API calls and improve UI performance
- Managed global state with Redux and Zustand accessible across components
- Built role-based access control UI — showing/hiding features based on user roles
- Built Next.js dynamic pages with file-based routing, SSR, and SEO-friendly slugs

PROJECTS

TaskFlow — AI-Powered Project Management Tool

React, TypeScript, Tailwind, Zustand, Node.js, Express, PostgreSQL, Prisma, JWT, Groq AI

- Built fullstack app with JWT auth, protected routes, and persistent login
- Kanban board with drag-and-drop (dnd-kit) and optimistic UI updates
- Groq AI (Llama) integration to auto-generate project tasks from description
- Deployed on Vercel (frontend) and Railway (backend + PostgreSQL)
